Name in Finnish	Common name in English	*Scientific name*	Allowed to be purchased, with certain limitations		Not allowed to be purchased
			A good choice	Purchase with consideration	Not approved
Ahven	Perch	*Perca fluviatilis*	MSC-labelled perch and perch caught from Finland, big swedish lakes (Vänern, Vättern, Hjälmare tai Mälaren) and from Peipsijärve in Estonia	Perch caught on the coast of Estonia	
Alaskanseiti	Alaska pollock	*Gadus chalcogrammus*	MSC-labelled Alaskan pollock, from the Eastern Bering Sea (USA) Alaskan pollock caught FAO 61; 67 (U.S. Ocean)	Alaska pollock caught from the Bay of Alaska (USA) FAO 67	Bottom-trawled Alaska pollock from Japan and Alaska pollock caught in Russia FAO 61
Ankerias	Eel	*Anguilla anguilla*			Eels may not be purchased under any circumstances, regardless of the area or capture method
Grönlanninpallas eli sinipallas	Greenland halibut	*Reinhardtius hippoglossoides*	MSC-labelled Greenland halibut	Greenland halibut caught with nets from Iceland.	Greenland halibut caught in the Northeast Atlantic (FAO27)
Hait, rauskut ml. sillihai ja piikkihai	Sharks, skates, rays and porbeagle	*Selachimorpha, Batoidea, Squalus acanthias, Lamna nasus*			All sharks and skates, regardless of the area or capture method
Harjus	Grayling	*Thymallus thymallus*	Finnish grayling caught in inland waters		Finnish grayling caught in the Baltic Sea
Hauki	Pike	*Esox lucius*	MSC-labelled pike, Finnish pike and pike caught in Lake Peipus, Estonia		Swedish pike caught in a lake or at sea
Hokikala, Patagonianhoki	Hoki, Blue grenadier, Patagonian grenadier	*Macruronus novaezelandia*	MSC-labeled hoki fish, caught with midwater trawl from the eastern stock of New Zealand	Bottom trawled hoki fish from the eastern New Zealand stock	Other bottom-trawled hoki, hoki from New Zealand's western stock
		Macruronus magellanicus	MSC-labeled hoki fish		Bottom-trawled hokifish Trawled Southeast Pacific Hokifish
Hummerit: Amerikanhummeri	American lobster	*Homarus americanus*	MSC-labelled American lobster		American lobster caught in North America (FAO 21)
Hummerit: Euroopanhummeri	European lobster	*Homarus gammarus*	MSC-labelled European lobster	European lobster caught in Sweden (ICES IIIa) and the Netherlands (ICES IVc)	European lobster caught (ICES IIa, ICES IIIa, ICES Iva)
Kallioantura eli pikkupääkampela	Lemon sole	*Microstomus kitt*		Lemon sole caught with gillnets and lemon sole from Iceland	Bottom-trawled and caught with seine nets

Kalmari	Squid	*Loligo vulgaris, Loligo spp, Illex argentinus*	MSC-labelled squid; squid caught with handlines and rod-and-line gear in the Northeast Atlantic (FAO 27, ICES IX)	Squid caught with jigs, seine nets and midwater trawls; bottom-trawled common squid from South Africa (FAO 47)	Bottom-trawled common squid
Kampela & Itämeren kampela	European flounder	*Platichthys flesus*		Flounder caught with nets from the Baltic Sea and the Danish Straits (FAO 27, ICES 22-23, ICES 27 & ICES 29-32)	Bottom-trawled European flounder and European flounder caught with gillnets in the Baltic Proper (FAO 27, ICES 26&28)
Kampelat: Hietakampela	Dab	*Limanda limanda*	Dab caught with gillnets and seine nets		Bottom-trawled dab
Kampelat: Punakampela	European Plaice	*Pleuronectes platessa*	MSC-labelled European plaice	European Plaice caught in the North Sea[1] and Iceland[2] and plaice caught with nets in the Baltic Sea[3] [1]FAO 27, ICES IV & ICES 20, 2ICES Va	Trawled plaice from the Baltic Sea[3] and generally bottom trawled plaice 3FAO27 ICES 24-32
Karppi	Common carp	*Cyprinus carpio*	Finnish common Carp		
Katkaravut: Pohjankatkarapu	Shrimp	*Pandalus borealis*	MSC and KRAV-labelled shrimp (NOTE! The WWF fish guide is not in green at all)	Shrimp caught in Svalbard[1], Greenland[2] and Iceland[3]. [1]FAO27, ICES 2; [2]FAO 21, NAFO SA1; [3]FAO27, ICES 5a2	Shrimp commonly caught in the North Atlantic.
Katkaravut: trooppinen (tiikerirapu, scampi, kuningas- tai jättiläiskatkarapu)	Shrimp: tropical (tiger prawn, scampi, king or giant prawn, Argentina Red Prawn)	*Penaeus indicus, Penaeus monodon, Penaeus spp, Heterocarpus reedi, Metapenaeus ensis, Pleoticus muelleri*	MSC and ASC-labelled Shrimp farmed according to organic standards.		Uncertified tropical shrimp, trawled shrimp
Kilohaili	Sprat	*Sprattus sprattus*	MSC labelled sprat,sprat caught in the Kattegat and Skagerrak and in the North Sea FAO27; ICES 3a & 4; 7D&7E	Sprat caught in the Baltic Sea (FAO27 ICES 22–32)	

Kirjolohi	Rainbow trout	*Oncorhynchus mykiss*	ASC-labelled rainbow trout, in Finland, Sweden, Rainbow trout farmed in Denmark and Switzerland	Rainbow trout farmed in Europe	Rainbow trout farmed in Chile
Kissakala eli merikissa	Atlantic wolffish, Catfish	*Anarhichas lupus*	MSC-labelled catfish	Iceland[1] caught with nets, seines and longlines [1]FAO 27, ICES Va	Catfish caught in the North Atlantic in general
Kolja	Haddock	*Melanogrammus aeglefinus*	MSC- and KRAV-labelled haddock caught with longline from Iceland[1] and the North Sea[2]. [1]FAO 27, ICES Va; [2]FAO27, ICES IIIa, ICES IV and ICES VIa (North Sea, Skagerrak and West of Scotland)	Haddock caught with nets and longlines in the Norwegian and Barents Seas[3] and the Faroe Islands[4]. Haddock caught with trawls, seines and nets in Iceland[1] and the North Sea[2]. [1]FAO 27, ICES W [2]FAO27, ICES IIIa, ICES IV and ICES VIa (North Sea, Skagerrak and West of Scotland) [3]FAO27, ICES I&II, [4]FAO27, ICES Vb	Bottom trawled haddock from the Norwegian Sea, the Barents Sea[3] and the Faroe Islands[4] [3]FAO27, ICES I&II, [4]FAO27, ICES Vb
Kuha	Pike-perch	*Sander lucioperca*	MSC labelled pikeperch, from the Gulf of Finland and pikeperch caught in inland waters, pikeperch caught in large lakes in Sweden (Hjälmaren, Mälaren, Vänern) and in Lake Peipus and Lake Võrtsjärv in Estonia, and in the recirculating water system farmed pike-perch FAO 27, ICES 32 (Gulf of Finland) FAO 27, ICES 29-30 (Archipelago and Bothnian Sea)	Pike-perch caught in the Archipelago and Bothnian Seas.	Pike-perch caught in the Gulf of Riga and off the coast of Poland
Kultakuore	Greater Argentine, Greater silver smelt	*Argentina silus*	MSC-labelled		
Kultaotsa-ahven	Gilt-head bream	*Sparus aurata*	ASC or KRAV-labelled gilt-head bream	Gilt-head bream caught with rods, handlines and traps and farmed golden-fronted perch (France, Croatia, Greece, Italy, Spain, Turkey and GLOBAL G.A.P standard)	Gilt-head bream caught with trawls and gillnets
Kummelitursk a	European hake	*Merluccius merluccius*	MSC and KRAV-labelled hake		Any hake, regardless of the fishing method employed
		Merluccius productus	MSC and KRAV-labelled European hake or European hake caught in the Pacific with midwater trawls		Any hake, regardless of the fishing method employed

Kuningasrapu	King Crab	*Paralithodes camtschaticus*	MSC-labelled king crab; king crab caught in Alaska[1] as well as the Barents Sea and the Norwegian Sea[2] ([1]FAO 67, [2]FAO 27, ICES I&II)		King crab caught in the Western Bering Sea in Russia's Kamchatka area (FAO 61)
Kuore eli norssi	European smelt	*Osmerus eperlanus*	European smelt from Finland		European smelt from other countries
Kyttyrälohi	Pink salmon	*Oncorhynchus gorbuscha*	MSC or ASC-labelled pink salmon or pink salmon caught with purse seines or trolls in the North East Pacific or pink salmon caught with gillnets in the United States/Alaska (FAO 67)	Pink salmon caught with gillnets or poundnets in the North East Pacific (Canada/British Columbia)	
Lahna	Bream	*Abramis brama*	Cyprinid fish caught in inland waters and coastal areas in Finland, Sweden and Estonia		
Lohi (Atlantin lohi)	Salmon (Atlantic salmon)	*Salmo salar*	ASC and organic-labelled salmon	Salmon farmed in Norway and elsewhere in Europe	Salmon farmed in Chile
Lohi (Itämeren lohi)	Salmon	*Salmo salar*		Salmon caught with poundnets in the coastal areas of the Gulf of Bothnia and the Gulf of Finland	Salmon caught with longlines in the Baltic proper
Lyyraturska/Seiti	Saithe	*Pollachius virens*	MSC-labelled saithe, saithe caught with nets and longlines from Iceland[1], seine caught from the Norwegian and Barents Sea[2], trawled saithe from the Faroe Islands[3] [1]FAO 27, ICES Va; [2]FAO 27, ICES I&II; [3]FAO27 ICES Vb	Trawled and seine-caught saithe from Iceland[1], trawled saithe from the Norwegian and Barents Sea[2] [1]FAO 27, ICES Va; [2]FAO 27, ICES I&II	Bottom trawled saithe from the North Sea[4] [4]FAO27 ICES 3a, 4 & 6
Made	Burbot	*Lota lota*	Finnish burbot and burbot caught with gillnets in Lake Vättern, Sweden	Burbot caught with gillnets in Sweden's inland waters (Mälaren and Vänern)	
Makrilli	Mackerel	*Scomber scombrus*			Mackerel caught in the Northeast Atlantic[1] and the USA and Canada[2] [1]FAO 27, [2]FAO21
Meriahven	Grouper	*Epinephelus itajara, Serranidae*	MSC-labelled grouper		
Meriantura, kielikampela	Common Sole	*Solea solea*	MSC-labelled common sole	Common Sole caught in the Southern Baltic Sea, Kattegat and Skagerrak[1] [1]FAO 27, ICES 20-24	Bottom-trawled common sole, regardless of the area

Meribassi	European Sea bass	*Dicentrarchus labrax*	ASC or KRAV certified sea bass, handline and pole-and-line sea bass from the Bay of Biscay[1] [11]FAO27, ICES 8a & 8b	Handline and longline European sea bass from the Northeast Atlantic[2] FAO27, 4 & 7	European sea bass farmed in net ponds, sea bass caught with nets and seines, and all trawled sea bass.
Merikrotti	Monkfish	*Lophius piscatorius*	MSC-labelled monkfish	Monkfish caught in Iceland[1] and all monkfish caught with nets and longlines. [1]FAO27, ICES Va;	Monkfish caught with a bottom trawl.
Miekkakala	Swordfish	*Xiphias gladius*	MSC-labelled swordfish	Swordfish caught with hand lines and rods and longline swordfish from South Africa[1] and the North Atlantic[2]. [1]FAO 47, 51 (South Africa EEZ); [2]FAO 21,27,31 & 34	Longline swordfish from the Indian Ocean[3] and all swordfish caught with driftnets. [3]FAO 51&57
Molva	Ling	*Molva molva*	MSC-labelled ling	Ling caught with longline and net	Bottom-trawled ling
Muikku	Vendace	*Coregonus albula*	Vendace caught in Finnish inland waters, vendace caught in the Swedish Bay of Bothnia		
Mustekalat	Octopus	*Octopus vulgaris*	Pot-caught octopus from the English Channel[1], the Bay of Biscay[2] and Australia[3]. [1]FAO 27, ICES 7d&7e; [2]FAO 27, ICES 8c; [3]FAO 57 (Australia EEZ, Gloomy Octopus)	Octopuses caught with seas, traps and hand lines.	Bottom trawled octopuses
Nahkiainen	European River Lamprey	*Lampetra fluviatilis*	European river lamprey from Finland		
Nieriä eli Rautu	Arctic char	*Salvelinus alpinus*	Iceland, Austria and Swiss-farmed char, recirculated Arctic char, from Lake Vättern in Sweden with nets caught char, ASC certified char	In net pools and ponds farmed char	

Osterit	Oysters	*Ostreidae*	MSC and ASC labelled oysters and farmed oysters from France and From the North-East Atlantic region		Bottom harrows and trawls Oysters
		Ostrea edulis	MSC, KRAV and ASC labelled oysters and oysters grown in France	Hand-picked from the Skagerrak or the North Sea	Caught by dredging or trawling, regardless of the fishing area
		Crassostrea gigas	Oysters with MSC, KRAV and ASC labels, farmed oysters from Norway, Brazil, China (Dadeng Sea), Japan or the USA		Caught by dredging or trawling, regardless of the fishing area
Pangasius eli haimonni	Pangasius, Striped catfish	*Pangasionodon hypophthalmus, Pangasius hypophthalmus*	ASC-labelled pangasius	Pangasius farmed in Vietnam	Non-certified farmed pangasius
Piikkikampela	Turbot, Piggvar	*Scophthalmus maximus*	ASC-certified and recirculating (Netherlands) turbot	Farmed turbot and turbot caught with gillnets in the North Sea	Turbot caught with bottom trawls
Puna-ahven	Ocean Perch, Deepwater Redfish, Golden Redfish	*Sebastes Norvegicus, Sebastes Mentella*	MSC-labelled red perch, Sebastes caught with a mid-water trawl in the Norwegian and Barents Seas[1] [1]FAO 27, ICES I&II	Caught in Iceland S. norvegicus	Ocean perch caught in the North East Atlantic (FAO 27) in general
Rapu: jokirapu ja täplärapu	Noble crayfish	*Astacus astacus, Procambrius clarkii, Pacifastacus leniusculus*	Signal crayfish caught in Finland's waters as well as red swamp crawfish (*Procambarus clarkii*) caught in France, Spain and Egypt	Finnish noble crayfish as well as red swamp crawfish (*Procambarus clarkii*) caught in China	Red swamp crawfish farmed in China
Rasvakala	Lumpfish	*Cyclopterus lumpus*	MSC-labelled lumpfish	Greenland lumpfish caught with gillnets	Lumpfish caught with gillnets or bottom trawls in the North West Atlantic
Ravut: Keisarihummeri eli merirapu	Norway lobster. Langoustine	*Nephrops norvegicus*	MSC and KRAV-labelled Norway lobster	Norway lobster caught on pots (Kattegat and Skagerrak)	Bottom-trawled Norway lobster
Ruijanpallas	Atlantic halibut	*Hippoglossus hippoglossus*	MSC and ASC-labelled Atlantic halibut	Atlantic halibut farmed in net cages in Norway	Atlantic halibut caught in the North Atlantic

Sampi	Sturgeon	*Acipenseridae*	Sturgeon farmed in Europe in a recirculated water system and its roe	Sturgeon farmed in Europe and its roe	The endangered wild fish and sturgeon farmed outside Europe
Sardelli (Anjovis)	European Anchovy	*Engraulis encrasicolus*	Anchovies from the Bay of Biscay[1] and anchovies commonly caught in the Mediterranean and Black Seas[2]. [1]FAO 27, ICES 8; [2]FAO37 (GSA 6,7,9,22,29)	Anchovies caught in Mauritania and Morocco[3] [3]FAO 34 (Mauritania & Morocco)	anchovies caught in the Adriatic Sea[4]. [4]FAO37 (GSA 17&18)
Sardiini	Sardin	*Sardina pilchardus*	MSC-labelled sardines, sardines caught in the British Isles[1]. [1]FAO27, ICES 7e & 7f	Sardines caught with purse seines in the Bay of Biscay2, off the coast of Portugal[3] and Morocco[4] [2]FAO27, ICES 8a, 8b, 8d; [3]FAO27, ICES 8c & 9a; [4]FAO 34 (Morocco); FAO 37, GSA 17;	Sardines caught in the Adriatic Sea[4] and southern Sicily[5]. [4]FAO 34 (Morocco); FAO 37, GSA 17; [5]FAO 37, GSA 16
Siika/Sillisiika	Whitefish	*Coreagonus lavaretus (siika)* *Coregonus clupeaformis (sillisiika)*	Whitefish caught in Finnish inland waters and farmed in Finland, herring whitefish (C. clupeaformis) caught in Lakes Huron and Superior in North America, and herring whitefish caught in Lake Michigan (State of Michigan)	Whitefish caught in Finnish waters, whitefish caught in Lake Michigan (Wisconsin) in North America	
Silakka ja silli	Baltic herring and Atlantic herring	*Clupea harengus membras, C. harengus*	MSC-labelled fish, herring caught in the Gulf of Riga, herring[1] caught in Iceland and autumn-spawning herring from the North Sea[2]. [1]FAO 27, ICES 5a; [2]FAO27, ICES 3a, 4 & 7d;	Baltic herring caught in the Gulf of Bothnia	Herring caught by trawl in the main basin of the Baltic Sea and spring-spawning herring caught in the southern Baltic, Kattegat and Skagerrak. Commonly caught herring in the Northeast Atlantic[3]. [3]FAO 27, ICES 1, 2, 4a, 5, 14a (Barents Sea, Norway Sea, Northern North Sea, Faroe Islands, Iceland and Greenland Sea – Norwegian Spring Herring)
Simpukat: Kampasimpukat	Scallops	*Placopecten magellanicus*	MSC-labelled		
		Pectinidae	MSC and ASC certified and hand-harvested scallops from Norway, Ireland, the UK and France		Scallops caught with bottom dredges and trawls
Simpukat: Sydänsimpukka, Partaveitsisimpukka jne.	Razor clam, American jack knife clam, Common Cockle	*Cerastoderma edule, Paphia undulata, Meretrix spp, Venerupis pullastra, Veneridae, Venerupis spp*	MSC-labelled razor clam, hand collected common cockle (C*erastoderma edule*) from the North Atlantic, and common cockle farmed in Italy (Cerastoderma edule)	Venus clams (*Veneridae*) farmed in China *Paphia undulata* hand collected in Vietnam (Western Central Pacific) Hand collected Italian and Mediterranean *Venerupis spp*	Caught with dredges
		Mytilus edulis	Mussels with the MSC, KRAV and ASC labels, farmed and hand-harvested mussels from Norway	A blue mussel caught in Limford, Denmark.	Mussels collected with bottom rakes.

Simpukat: Sinisimpukka, Välimerensimpukka	Blue mussel, Chilean Blue Mussel, Välimeri mussel, Asian green mussel	*Mytilus chilensis*	MSC, KRAV and ASC-labelled mussels, farmed in Chile		Mussels captured with dredges or trawls, regardless of the area
		Mytilus galloprovincialis	MSC, KRAV and ASC-labelled mussels, farmed and hand collected mussels from Norway		Mussels captured with dredges or trawls, regardless of the area
		Ruditapes philippinarum	MSC, KRAV and ASC-labelled mussels, farmed and hand collected mussels from Norway		Mussels caught with dredges or trawls, regardless of the area
		Common Cockle	MSC, KRAV and ASC-labelled mussels, farmed and hand collected mussels from Norway		Mussels caught with dredges or trawls, regardless of the area
		Perna Viridis	MSC, KRAV and ASC-labelled mussels, farmed and hand collected mussels from Norway		Mussels caught with dredges or trawls, regardless of the area
		Perna canaliculus	MSC, KRAV and ASC-labelled mussels and hand collected from New Zealand		Mussels caught with dredges or trawls, regardless of the area
Suutari	Tench	*Tinca tinca*	Finnish cyprinids		
Särki	Roach	*Rutilus rutilus*	*Cyprinidae* caught in Finnish coastal and inland waters, bream caight in Sweden's Vänern and Mälaren lakes, and bream and roach caught in Estonia's Lakes Peipsi and Vörtsjärv.		
Taimen	Brown trout	*Salmo trutta*	ASC-labelled brown trout	Farmed brown trout	Brown trout caught in Finland’s inland waters and the Baltic Sea
Taskurapu (isotaskurapu)	Crab (edible crab)	*Cancer pagurus*	MSC-labeled crab and pot-caught crab from the west coast of Sweden	Crab caught on pots from Norway, France and Scotland	Crab caught with bottom trawls
Tilapia	Tilapia	*Oreochromis spp*	ASC-labelled tilapia,Organic labelled tilapia and tilapia from Europe grown in circulating water farms		Tilapia farmed in ponds and net cages
Tonnikalat: Isosilmätonnikala	Bigeye tuna	*Thunnus obesus*	MSC-labelled bigeye tuna; bigeye tuna caught with jigs in the Western Pacific (FAO 61,71,77,81)	Bigeye tuna caught with jigs in the Atlantic (FAO 21, 27, 31,34,41,47) or the Indian Ocean (FAO 51,57)	Bigeye tuna caught with purse seines (FAD and non-FAD) and longlines, regardless of the area

Tonnikalat: Keltaevätonnikala	Tuna: Yellowfin tuna	*Thunnus albacares*	MSC-labelled yellowfin tuna,Yellowfin tuna caught with hand lines and rods in the Pacific Ocean[1]. [1]FAO 61, 71, 77, 81 (WCPFC)	Yellowfin tuna fished with rods and purse seines from the Atlantic[2] and yellowfin tuna caught with selective purse seines from the Pacific Ocean[1]. [1]FAO 61, 71, 77, 81 (WCPFC), [2]FAO 21, 27, 31, 34, 41, 47	Yellowfin tuna commonly fished with longlines, nets and purse seines, as well as all yellowfin tuna fished in the Indian Ocean[3]. [3]FAO 51 and 57
Tonnikalat: Pitkäpyrstötonnikala	Tuna: Longtail tuna, tongol tuna	*Thunnus Tonggol*	Longtail tuna caught with handlines and jigs in the Gulf of Thailand[1] [1] FAO 71 (Gulf of Thailand)	Longtail tuna caught with handlines and jigs in the Andaman Sea (FAO 57 (Andaman Sea, Thailand))	Longtail tuna caught with purse seines (FAD and non-FAD) and gillnets, regardless of the area
Tonnikalat: Sinievätonnikala	Bluefin tuna	*Thunnus thynnus*	Bluefin tuna caught with rods and traditional tuna traps (Almadrabas) in the Mediterranean[1]. [1]FAO37;	Tuna caught with purse seines from the Mediterranean[1] and the eastern Atlantic[2] and pole-and-line tuna from the Western Atlantic[3]. [1]FAO37; [2]FAO 27&34; [3]FAO 21&31	Bluefin tuna caught with longlines and all farmed bluefin tuna.
Tonnikalat: Skipjack, boniitti	Tuna: Skipjack, Bonito	*Katsuwonus pelamis*	Skipjack caught with rods.	Skipjack caught with a purse seine.	Skipjack caught with nets and long line
Tonnikalat: Valkotonnikala, Albacore	Tuna: Albacore	*Thunnus alalunga*	MSC labelled albacore tuna, Trolling albacore tuna, albacore tuna caught with hand lines and rods from the Atlantic[1], South Africa[2] and the Pacific[3], trawled albacore from the Atlantic[4]. [1]FAO 21, 27, 31, 34 (North Atlantic albacore stock); [2]FAO 41, 47 (South Africa EEZ); [3]FAO 61, 67, 71, 77, 81, 87; [4]FAO 27, ICES 7 & 8	Albacore tuna caught with hand lines and rods in the Indian Ocean[5], albacore tuna caught with purse seines in the Atlantic, and albacore tuna caught with longlines in the South Pacific[6] and North Atlantic[1]. [1]FAO 21, 27, 31, 34 (North Atlantic albacore stock); [5]FAO 51&57; [6]FAO 71, 77, 81, 87	Commonly caught with longline albacore

Turska	Cod (also Gray cod, Grey cod, Grayfish, Greyfish)	*Gadus Morhua*	MSC and KRAV-labelled cod. Cod caught with a longline from Iceland.[1] [1]ICES 5a	Cod caught with trawls from Iceland[1], cod caught with rods from the Faroe Islands[2]. [1]ICES 5a; [2]ICES 5b	Cod caught in the Baltic Sea[3], the Barents Sea, the Norwegian Sea[4] and the North Atlantic in general. [3]ICES 22-24 (Western Baltic cod), ICES 25-32 (Eastern Baltic cod); [4]ICES 1&2 (Northeast Arctic cod)
Tyynenmerenturska	Pacific cod	*Gadus macrocephalus*	MSC and KRAV-labelled cod	Cod caught with trawls in the Bering Sea	Cod caught in the north-western parts of the Pacific (FAO 67)
	Clam (Atlantic Razor)	*Ensis directs, Ensis spp.*	MSC-labelled		
	Mactromeris polynyma	Mactromeris polynyma	MSC-labelled		
	Yesso Scallops	*Patinopecten yessoensis*	MSC and ASC-labelled		Caught by dredging or with a trawl, regardless of the area
	Undulated Surf Clam, Undulate Venus	*Cerastoderma edule*	MSC-labelled Hand collected in the North West Atlantic		Regardless of the area or method of collection, regardless of the production system or country (aquaculture)
		Paphia undulata	MSC-labelled	Hand collected in the Western Central Pacific	Regardless of the area or method of collection, regardless of the production system or country (aquaculture)
		Meretrix spp	MSC-labelled		Regardless of the area or method of collection, regardless of the production system or country (aquaculture)
		Venerupis pullastra	MSC-labelled Farmed in Italy		Regardless of the area or method of collection, regardless of the production system or country (aquaculture)
		Veneridae	MSC-labelled		Regardless of the area or method of collection, regardless of the production system or country (aquaculture)
		Venerupis spp	MSC-labelled		Regardless of the area or method of collection, regardless of the production system or country (aquaculture)
